Sir,

Re Bore-well at Chikkanaikanahalli in connection with the water supply to the town

In forwarding herewith, in original, the connected records received from the President, Town Municipal Council, Chikkanaikanahalli, on the above subject, I have the honour to state as follows -

The President, states that the estimate for Rs 40,500/- received from the Sanitary Engineer, for the protected water supply of the town was placed before the Municipal Council at their meeting held on 3-6-1942 for devising ways and means to finance the scheme It was resolved that half the cost of the scheme be met by Government in the shape of grants and the other half, being the quota of the Municipality, as loan repayable in easy instalments and that the income under mohatarfa taxes would be earmarked towards the repayment of the loan instalments with interest

As the success of the entire scheme depends on the yield or water from the bore-wells sunk for the purpose, the Sanitary Engineer has sent a revised estimate for Rs 2,000/- being the cost for the sinking of a bore-well, due to the increase in the price
